Sunshine is a great example of how Tuffy's offspring will grow up to look and ride like. We kept her back from his first crop to start under saddle. She is a great athlete with the look and ability to be a top notch barrel and performance horse. She is going to be a huge stopper just like her sire and is started on her spins. Sunshine is what a performance prospect is supposed to be like. Don't miss this opportunity.

Bunny is a finished heel and calf roping horse. She will also head and goat ties. Raised and trained by Kollin VanAhn (currently rated 11th in PRCA World Standings) Kollin competed on her at Iowa High School Rodeos and at National High School Finals Rodeos. My grandson used Bunny for breakaway and calf roping at Jr High Rodeos. Bunny would be great for any level competitor including a beginner. She is an easy keeper. Bunny is great to be around, good mannered and without bad habits. Bunny's daughter was also trained by Kollin, sold to Cesar de la Cruz (currently ranked 8th in PRCA world standings) and competed at NFR. She just sold for \$75,000.

Frenchie has a flawless pedigree packed with barrel and race bloodlines. She spent 3 years on a ranch in South Dakota working cattle and dragging calves to the fire. Spring 2009 she had 60 days professional barrel racing training by Hallie Melvin, Hermosa, SD. She is currently being hauled and seasoned. We also started heeling off Frenchie this summer.

31 **GEE** '92 **SORREL MARE**

Calf Ropers and Breakaway Ropers take a look! Gee has been hauled to numerous rodeos and to the National Little Britches circuit and to the finals. She was used in South Dakota High School Rodeos, consistently placing in the top 5. Our grandson has used Gee in the Iowa High School Rodeos as a backup to our stallion Flying Hearts Tuffy. We need to sell her so we can advance our younger calf roping prospects. Take advantage of this great opportunity. Gee would work well for a beginning roper on up to advanced. Gee also works nicely as heel horse. Watch a video of Gee in action by going to this link:
